

Fayette County Notice of Education and Certification Requirements for Persons Involved with Land Disturbing Activities Effective January 1, 2007

As of January 1, 2007 all land-disturbing projects within unincorporated Fayette County shall meet the following requirements.

- All Erosion, Sedimentation and Pollution Control Plans shall be prepared by a Level II Certified Design Professional. The plan shall include the individual's certification number and expiration date. Plans submitted without this information will not be approved.
- Projects operating under a Land Disturbance Permit shall have at least one on-site manager/project superintendent who is a Level 1A Certified Personnel. Projects without an on-site "certified personnel" will be issued a Notice-of-Violation and then a Stop-Work-Order if the site is not brought into compliance within five business days.
- Fayette County personnel enforcing the Soil Erosion and Sedimentation Control Ordinance shall be Level 1B Certified Inspectors or Level II Certified Design Professionals.

Level 1A, 1B, and II certifications are issued by the Georgia Soil and Water Conservation Commission. Addition information on the regulatory requirements and a listing of classes, test dates and location is available through the GSWCC.
